

VYLO PMS

PRIVATE • PRECISE • POWERFUL

Terms of Use

v1.0.0 • 2026-09-04

1. About This Document and Vylo PMS

Vylo PMS ("the App," "Vylo PMS," "we," "us") is a local-first portfolio management desktop application developed and maintained by an individual developer under the Vylo product name. As of this release, no separate registered corporate entity has been established for Vylo PMS -- these Terms are between you and the developer individually, until (if ever) that changes.

This release (v1.0.0) is scoped to Single User and Family User use, distributed as a Windows desktop installer via the official Vylo PMS release repository on GitHub. Advisor and Small-Firm distribution is a planned future tier and is not covered by, or available under, these Terms.

2. Acceptance of Terms

By downloading, installing, or using Vylo PMS, you agree to these Terms of Use. If you do not agree, do not install or use the App.

3. What Vylo PMS Is (and Isn't)

Vylo PMS helps you track and plan around your own investment portfolio -- stocks, mutual funds, ETFs, direct real estate, and physical gold -- entirely on your own computer. It provides reporting, planning tools, and two AI-assisted features (see the companion AI Disclosure document).

Vylo PMS is a record-keeping and planning tool. It does not execute trades, transmit orders to any broker or exchange, or manage money on your behalf. Nothing in the App constitutes financial, investment, tax, or legal advice -- see Section 7.

4. License to Use

We grant you a personal, non-exclusive, non-transferable, revocable license to install and use Vylo PMS on your own computer(s), for your own or your family's personal, non-commercial portfolio tracking. You may not:

- Redistribute, resell, or sublicense the installer or any part of the App without our written permission.
- Reverse-engineer, decompile, or attempt to extract source code beyond what is already published in the official repository.
- Use the App to provide portfolio-management services to third parties -- that use case is the not-yet-available Advisor/Small-Firm tier.

Downloads should only be taken from the official Vylo PMS release repository on GitHub; we are not responsible for copies obtained elsewhere.

5. Your Data

You retain full ownership of the portfolio, transaction, and personal data you enter into Vylo PMS. It is stored locally in a database on your own device; we do not host, receive, or have access to it. See the Privacy Policy for full detail on what data the App handles and where it goes.

6. Third-Party Services

Vylo PMS uses Twelve Data and Yahoo Finance to fetch market prices, sending only the relevant ticker symbol -- never your holdings or identity. Use of these price feeds is subject to those providers' own terms, which we do not control.

If a price feed becomes unavailable, degraded, or inaccurate, Vylo PMS is not responsible for resulting decisions made on that data -- always cross-check important figures against your broker or exchange statements.

7. No Financial, Investment, Tax, or Legal Advice

Vylo PMS, including its AI-assisted classification suggestions and financial-literacy assistant, is provided for informational and educational purposes only. It does not constitute, and should not be relied upon as, professional financial, investment, tax, or legal advice.

You are solely responsible for your own investment decisions. Consider consulting a licensed financial advisor, tax professional, or lawyer before acting on anything the App shows you.

8. AI Features

Two features in Vylo PMS use a locally-run AI model: instrument classification suggestions and a financial-literacy assistant. Both run entirely on your own device. Full detail, including their limitations, is in the companion AI Disclosure document, which forms part of these Terms by reference.

9. No Warranty

Vylo PMS is provided "as is" and "as available," without warranty of any kind, express or implied, including but not limited to warranties of merchantability, fitness for a particular purpose, accuracy, or non-infringement.

This is v1.0.0 of a solo-maintained product; we do not guarantee it is free of defects, that price data or calculations are always accurate or current, or that the App will be available or supported on any particular schedule.

10. Limitation of Liability

To the maximum extent permitted by applicable law, the developer of Vylo PMS will not be liable for any indirect, incidental, special, consequential, or punitive damages, or any loss of data, profits, or investment value, arising from your use of or inability to use the App -- including losses arising from inaccurate price data, a calculation error, or a decision made based on the App's output, whether AI-generated or not.

11. Changes to the App and These Terms

Because Vylo PMS is solo-maintained, there is no guaranteed update schedule, and features may change, be added, or be removed between versions. We may update these Terms from time to time; the version and date at the top of this document indicate the version in force. Continued use after an update means you accept the revised Terms.

12. Termination

You may stop using Vylo PMS at any time by uninstalling it; your local data remains yours and is not affected by uninstalling. We may discontinue the App or support for it at any time; we will make a reasonable effort to notify existing users via the GitHub repository if that happens.

13. Governing Law

These Terms are governed by the laws of India. Courts of competent jurisdiction in India have authority over any dispute arising from these Terms.
